Kenneth Barfield of the Misalsologi Aeronautics Commiscon Wednesday asked local combordies to get the disport project on the road by the end of June and the port and harbor communication and board of supervicoro promptly authorized negatictions for land a quisition.

The supervisors and port group met jointly yesterday afternoon to bear Barfield, reprecentatives of the Federal Aviction egency and Michael Balter, jr., inc. consulting engineers, outline what needs to be done to hold onto the FAA's tentadies allocation for the new

The port commission had asked for \$670,300 from FAA for the new air carrier airport with a 6,500 runway which it hopes eventually to extend to 10,000 feet. FAA lost month cleared a tentative allocation of \$349,030, cutting back the runway to 4,500 feet and making other reductions in the preliminary project. FAA urged that concurrection start in this fiscal year which ends June 30.

Phillip Koonce and Jack Williams of the Baker firm said they had come ideas to puch the bid date ahead and proposed to bring in next week requests for soil borings so paving design can be planned.

Because the soil borings can't be made on private proparty, the port commission edopted a resolution declaring the airport in the public interest and authorizing its attorneys to negotiate with the landowners, securing such approfests as required by FAA, and institute condemnation proceedings where necessary. The motion was by Donald Landry, seconded by Otho Rester.

Supervisors concurred with the recolution on the motion of Jack Lott, beconded by Dolph Kellar.

Lunher Monthews, FAA district airport engineer from Jackson, noted his office requires two recognized approisers and will furnish a guide on what it needs from them, Bobby Tramel, FAA chief engineer from Memphis, also was hero.

Bardeld explained the procedure for cecuring the government grant as soon as conareales page one region. He noted the full \$58,950 for land acquisition was allowed. The MAC man suggested that .8

WASHINGTON - It may be that Red China's bitter internal bottle eventually will besent the United Stones, but don't count

Actually. Wectors information about what's happening is limited and not necessarily accurate.

The feet that trouble has broken out to about all we can be our of. And it is important. It indicates clearly that Mas Tarung'o long regime to being challenged. But how much of this in directed exciner Mes and his policies, and how much of it is almyly a bands over who will oucceed him, we do not brow. More to clear evidence that intollectuals have been purged—

come removed from office, come arecared, come driven to andide. Formero, lectory workers and other laborers have been rebelling. Yet they all could have been power in the cirugals between the communic fections fighting for the power that Mo eventually must currender because of age or death.

h is important to recall that this same struggle went on in Russia when Stalin's reign ended. Stalin was a hard-liner. And in the Kremlin conflict, the modernic Khrushchev evenreally won—only to be outplanted after a few years by men claser to Stalin's this idea.

On the whole, East-West relations benefitted from Stalin's popular, and the come may prove true in the case of Mao Testury. Beyond quection come of the conflict in Politing in percent the old-file communica and call pollon the old Leadin doctries that war with capitalism to insvitable, and modurated who first that war in a nuclear age would be corastropide, to come system of co-existence with the West must be coopied.

Our chief reason for haping that the moderates eventually will prevail to the fact that time to on our side. The old-style commendate who in Russia suffered under the Czar are almost all come. Their overcome have link perconal impoledne of the old bimerneou against the 'ruling clauceu'.

And Runnia had made such progress in the past half century that their government now must pay attention to the growing decire for material comforts. It to longer can demand—and get—the filerce byalty it once commanded, becourse the common enemy which brought the communicio into power has been completely liquidated. However much Moccow proportion will denounce capitalism in the West, we are not opprecedes of the Soviet people, nor are we Hitler's inveding Mozdo.

The come to true in Red China. The initial tabeover by Mco Tra-rung was based on the weathers and corruption of the old Chiang Kai-shelt government much more than any anti-Western centiment. And with that old 'enemy' now confined impotently on Formoon, the force supporting the original Meo revolution has been discipated.

Thus it is highly probably that the Polding leaders don't believe all that anti-U.S. and anti-Russian propagands they are using to beep the revolutionary spirit alive. The real targets are rivals for Masos power. And, once this internal war is over, Red China could become less bellicope toward both Russia and the West.

At least, we can hope to.

Arthur Goldberg, U.S. Ambassador to the United Nations. would like to step down. He took the job or great sacrifice and left a life position on the Supreme Court to try to further world peace. His views on Vietnam have definitely been opposed to those of the State Dept. but he has been a good coldier and carried out orders. Now that the elections are behind, however, you can look for Goldberg to regign.

When he does, President Johnson may appoint two men: Ex-Gov. William Scramon of Pennsylvania, and Republican, and Ex-Gov. Mannan Williams of Michigan, a Democrat, to give the U.S. bipartican representation at the United Nations.

Stubborn Adam

Rep. Adam Clayton Powell, the Harlem Congressman, might have avoided being disciplined by the House if it hadn't been for his crubbornness. His troubles arose from a \$46,000 libel judgment in New

York for calling Mrs. Eather James a "bag woman." Her enormeyo offered to certile for \$8,000, but he conterrotrouply refuced until court penalties for contempt and interect on the judgment had raised the sum to \$210,000, and the

courts had leaved warrants for his arrest. Rep. Wayne Hayo of Ohio, chairman of the subcommittee which investigated Powall, first offered to all down with Powell and help arallemen out the difficulties. But Powell spurned a vay out. So the committee had to go ahead with its inves-

breidsmally, Mrs. Adam Clayton Powell has confided to broken that Adam quietly walked out of her life in Puerto Rico more than 18 months are.

There was no quarrel, no produce. He simply drank a cock-tall with her, also to the Mainland, and never returned.

And while he put her on his payroll for \$20,000 a year, all he can her was \$400 a month to support their con.

It was Powell's treatment of his wife which turned Congress against him as much as anything else.

"a man of committed bias and Powell and Dodd

One of the big questions around Washington is the colect the purishment of Adam Clayton Powell by the House will have on the case of Son. Tom Dodd of Connecticut.

It'd no course that come congresomen sted to have Powell crep and became they through le important to over a procedent regarding Dodd, dince that Potell did was chicken feed comreased with the buye amount of compalgr' many Dodd depoched in Mo own book account. South Mississippi EPA-

Whose member-owners brought the modern miracle of electricity to rural people in spite of efforts to prevent it - striving now to help Southeast Mississippi attain its full industrial and economic potential.

Come now, Mr. Watson, who is really most concerned about the future of Mississippi?

In 1963, after three years of study involving 78 actual hearing days, some 7,000 pages of testimony and 478 exhibits, the Mississippi Public Service Commission granted South Mississippi Electric Power Association a certificate of public convenience and necessity. Commercial power companies doing business in the state appealed the action to the Hinds County Chancery Court and later to the Mississippi Supreme Court. Both judicial bodies approved the certificate. Upon petition of the power companies, the United States Supreme Court refused to review the decision of the State Court.

All loan funds have been held pending approval of the amendment recently granted which would make the proposed facility edequate to serve the present increased power needs of the area.

With the heavy weight of judicial review supporting South Mississippi Electric Power Association's request. why must the case be tried in the pressi
